Dear Author ICoSNIKOM

Based on the results of the 2019 ICoSNIKOM screening paper, most papers are still far from being accepted at IEEE Xplore. We expect the cooperation of the Author to improve the paper so that it can be accepted in the IEEE Xplore Publication. We hope that we can receive the improvements that the Author made again on December 24, 2019

Errors that are often found, among others

1. Affiliation

If it comes from 1 University, it is better without a column

If it comes from 2 universities, two columns should be made

2. References

To avoid errors in citations and reference lists, you should use Mendeley

3. Content

The content of the paper takes into account the LOA, then it is corrected according to the LOA

4. Additional Notes

Here we also send some additional notes for improvement:

"Minimum 4 pages. Don't have the word Author on the last page, it's not in IEEE format (Please check the IEEE template format)"

Best regards

ICoSNIKOM Committee
