Dear Author (s),

Paper ID : 1570489888
Author : ~~Ernitha Pusjita, Chichi J. Manula, Samuel L. P. Damaoik~~
Paper Title : ~~Effect of Microbial and Compost (Cibacoccus Olorata L.) on the Production of Red Onion in Ulujuat Soil~~

~~Congratulations~~ We are pleased to inform you that your paper referenced above has been **ACCEPTED (with major revision required)** by the International Conference on Agribusiness, Food, and Agro-Technology 2018 (ICAFAT 2018). You are invited to orally present the paper at ICAFAT 2018 that will be held on 19-21 September 2018 in Grandhika Hotel, Medan, Indonesia.

In order to have your paper included in the conference proceeding that will be further published in the IOP Institute of Physics Journal of Earth and Environmental Science (EES), you are required to complete the following steps:

1. Completion of the Conference Registration.
 - Please refer to the amount of Registration fee in this link: http://icafatust.ac.id/?page_id=11
 - For international participant, the payment registration can be done by Credit Card via EDAS account at <http://edas.info/N24780>
 - For local participant affiliated with Indonesian institution, the payment might be done via bank transfer to the following account:

Bank name	: BNI Cab. Jl. Dr. Mansyur Medan
Account name	: Universitas Katolik Santo Thomas Medan
Account number	: 0091352819
 - After registration via EDAS and payment via EDAS/ bank transfer, please provide us with:
 - Your Paper ID,
 - The payment receipt,
 - Student ID card (if applied),
 - ~~Resend~~ it via email to rosatampubolon031969@gmail.com with subject: "ICAFAT 2018 REGISTRATION FOR PAPER ID #[PAPER_ID_NUMBER]".
2. Submission of the final and camera-ready version of the paper can be done by completing the following steps:
 - Upload your compatible PDF versions through your EDAS account in the final manuscript submission menu.
 - Send your final papers (**in.doc or Latex format**), signed copyright form, and the result of PDF compatibility Check (**in.pdf format**) to rosatampubolon031969@gmail.com,

International Conference on Agribusiness, Food, and Agro-Technology
ICAFAT (2018)
Universitas Katolik Santo Thomas Medan,
Jalan Setia Budi No. 479-F Tanjung Sari Medan 20132
Telp. (061) 8210161, Fax. (061) 8213269.
Email: icafat@stt.ac.id

with subject: "ICAFAT 2018 FINAL MANUSCRIPT FOR PAPER ID
#[PAPER_ID_NUMBER]" (By 16 September 2018).

Most importantly, please ensure that your paper similarity score is less than 25%. The ICAFAT 2018 Committee will check thoroughly about this issue. According to the IOP regulations, any paper with a similarity score of more than 25% will be dropped and should be reported to IOP. Such paper will not make it to the publisher. Please make sure your final paper follow this rule. In case of a paper with similarity score more than 25%, the paper will be dropped or cancelled to be presented at the ICAFAT 2018 conference.

Thank you for your contribution and submission of high quality of your paper. We are looking forward to seeing you in Medan - Indonesia, on 19-21 September 2018. If you have further questions, please do not hesitate to contact us via e-mail to: rosatampubolon031969@gmail.com.

I am looking forward to seeing you in Medan.

Best regards,

Dr. Rosa Tampubolon
Chair of ICAFAT 2018

Review 1 (Reviewer A)

Reviewer [Annes Pudjiastuti \(A\)](#): completed; assigned [Sep 8, 2018 23:19:04 UTC](#) by [Sisilia Yanti, M. Si](#); due [Sep 15, 2018 10:59:00 WIB](#); completed [Sep 13, 2018 04:40:10 UTC](#)

Originality Significance of Topic Presentation Familiarity Recommendation

Weak Accept (8) Weak Accept (8) Weak Accept (8) Familiar (4) Accept (8)

Strengths/Weakness (What are the major reasons to accept/reject the paper? [Be brief])

this research is good in an effort to improve the fertility of ultisol soils through better cultivation technology.

Contribution's & Detailed comments (What are the major issues addressed in the paper? Do you consider them important? Comment on the degree of novelty, creativity and technical depth in the paper. Please provide detailed comments that will be helpful to the TPC for assessing the paper, as well as feedback to the authors.)

Revised the paper by following the IOP format. Even without the treatment of compost, I believe the plant height, number leaves, number of tillers and tuber weight will increase. Could you provide the comparison of their increase with and without the compost treatment? How much the increase of ultisol soil fertility? the Citation must be in the number form and it must be in sequential (from [1] to []). The english must be improved. Please extend your method in the introduction therefore the paper contributions are clearly appear compare with the literature. To indicate that your proposed method is the current idea, please improve your introduction with some literature which are published in the last three year (min 10 references only in the introduction). Please explain more detail about the methods: the author could add some Figure such as to indicate the the experimental step, data processing or laboratory works. It is not clear what is the proposed method and how the method executed to obtain the results, please check the similarity into less than 25%, please check the reference format based on the IOP template

Comments for TPC members only (Write any additional comments for TPC members only. Refrain from duplicating those in detailed comments. The authors will not see these comments.)

This paper is accepted with a revised

Originality Significance of Topic Presentation Familiarity Recommendation

Accept (8) Weak Accept (8) Weak Accept (8) Working Knowledge (3) Weak Accept (7)

Strengths/Weakness (What are the major reasons to accept/reject the paper? [Be brief])

Is the Micorrhizae a good partner or symbiotic agent for onion? Based on the soil analysis the P content of Ultisol soil it looks quite high, that is why the effect of applying Micorrhizae ont significant.

Contribution's & Detailed comments (What are the major issues addressed in the paper? Do you consider them important? Comment on the degree of novelty, creativity and technical depth in the paper. Please provide detailed comments that will be helpful to the TPC for assessing the paper, as well as feedback to the authors.)

-taken into account : using the phrase : "Production" more relates with "land area, size of area"; while the "productivity" more relates with "land quality". It needs supporting data of physical and chemical Kirinyu analysis, and physical and chemical soil analysis after trial. Analysing nutrient uptake (N, P, K, Ca, Mg) is better to be done to support the clear discussion of research results

Comments for TPC members only (Write any additional comments for TPC members only. Refrain from duplicating those in detailed comments. The authors will not see these comments.)

Consistency and following the rule of writing will be good for all the manuscripts and also standard english writing. The citation of reference should be consistence using the author name or numbering.
